
The hen and stag nights are becoming a new tradition along with all the others that coincide with your wedding day. These nights are more of a chance for the maid of honour, best man, close family and friends to really get involved in giving you the best send-off from single life as you could possibly have.

This could be a small gathering of close family and friends and a night out on the town, or it could be a little more adventurous; maybe flying out somewhere unexpected for a couple of days.

However you decide to spend your last hours as a bachelor or a bachelorette, you want to ensure that it will be the one party that all subsequent parties are always attempting to surpass.

Here are a few ideas for Hen and Stag nights at Milsoms...

Hen Nights - Maison Talbooth

Why not come to the Maison Talbooth and check your party in to the most magnificent, newly refurbished 9 rooms; 3 suites (with outdoor hot tubs) and each room with its own character and style.

The Maison Talbooth also benefits from a few extra hidden gems; the Treatment Rooms are available, so you could relax in the afternoon with a treatment or two before sitting down to a three course dinner (cooked by a Le Talbooth chef on site). And to finish the evening you could head to the pool house and sit down by the outdoor fireplace with a glass of Champagne with music playing in the background.

Please take a look at House Parties at the Maison Talbooth for more information.
